Customer Journey Map

The Customer Journey Map illustrates the complete experience of a student while using the Voice-Based Concept Understanding Analyzer. It captures the user's actions, interactions, thoughts, and emotions at each stage, helping identify opportunities to improve the overall learning experience through AI-powered evaluation and instant feedback.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Opens the application. - Selects a concept. - Records a voice explanation.	- Speech is converted to text. - AI analyzes concept understanding. - System evaluates performance. - Generates performance scores. - Provides instant feedback.	- Reviews score and feedback. - Downloads report. - Practices again to improve. - Tracks improvement over time.
Touchpoint <i>What part of the service do they interact with?</i>	- Streamlit Web App - Microphone - Concept selection screen - Instructions / Guidelines	- Speech-to-Text module - AI Evaluation Engine - Audio visualization - Performance scoring system	- Feedback dashboard - Performance report - PDF download option - Practice again option
Customer Thought <i>What is the customer thinking?</i>	- Will my explanation be correct? - Can AI really evaluate me? - I hope this will help me improve.	- I hope the evaluation is accurate. - What score will I get? - Where am I lacking? - I want detailed feedback.	- Now I know where I need improvement. - This feedback is helpful. - I will practice again and improve.
Customer Feeling <i>What is the customer feeling?</i>	- Curious - Nervous - Hopeful - Motivated to try	- Focused - Excited - Slightly anxious - Engaged	- Confident - Motivated - Satisfied - Encouraged
