Team ID	SWTID-2026-2030
Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	2 Marks

Data Flow Diagram

The Data Flow Diagram (DFD) illustrates how data flows through the Voice-Based Concept Understanding Analyzer. It shows the interaction between the student, the AI evaluation system, the database, and the generated feedback report. The diagram represents the process of recording speech, converting it to text, analyzing conceptual understanding, storing results, and providing instant feedback to the user DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Student (User) – Provides voice input and receives the AI-generated evaluation report.
Rectangle with numbered header	Process	Converts speech to text, analyzes conceptual understanding using AI, generates scores, and provides instant feedback.
Rectangle (solid fill, no number)	Data Store	Stores student information, speech transcripts, evaluation scores, feedback reports, and learning history.
Labeled Arrow	Data Flow	Represents the movement of data such as voice input, speech transcript, AI evaluation results, scores, and feedback between the student, processes, and database.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
